DECLARATION OF UNDERGRADUATE MAJOR(S)
Complete the form below and return it to Jay Express Services Center in L.79 NB.

Declarations of major can be made once per semester. Changing majors can result in the loss of financial aid. Students, who have accumulated between 45 credits or above by the end of the current semester, must declare or reconfirm their major before registering in the subsequent fall semester.

Declaring a Double Major: Students must complete the required number of credits for both majors. The overlap between your two majors must be no more than two courses, financial aid will only pay for courses in your primary major. If more than 2 courses overlap in your majors, consult with the Major Coordinator/Advisor to work out an academic plan to complete each with the required number of credits. You cannot earn a minor that is in the same academic field as either major, and you must follow the new catalog year for degree requirements when electing your major(s) regardless of the year you entered John Jay College.
